

Centre name : Amt der Steiermärkischen Landesregierung, A 10 Land- und Forstwirtschaft,
Referat für Pflanzengesundheit und Spezialkulturen

City : 8551 Wies

Country: Austria

Telephone: +43 3465/2423-13

Website: www.spezialkulturen.at

Facebook page:

Name of the contact person: DI Doris Lengauer

Position: teamleader Special Crops

Email: doris.lengauer@stmk.gv.at

The research programmes of your centre

vegetables – conventional and biological cropping

Person of contact for this programme : DI Doris Lengauer

Email : doris.lengauer@stmk.gv.at

Our infrastructure allows trials in open land and in greenhouses. Our research topics are based on applied subjects in the fields of horticulture (vegetables, ornamentals and medicinal plants).

Trials of vegetables are done conventional and biological. Most of them are testings of new varieties for their ability of cultivation in Styria. New systems in cropping, fertilization, plant protection, biological pest control and the application of beneficial insects are further emphases.

We are member of the Austrian gene bank and our stock consists over 300 accessions.

Current partnership with other research centres (national or international)

Actually there exist some cooperation projects with FIBL Austria, BIO Austria, HBLFA Schönbrunn, Arche Noah, University of Natural Resources and Life Science in Vienna (BOKU) and University of Graz

Current partnerships are only national

Are you searching for more European partnerships with other research centres?
