

Centre name: Agricultural Institute of Slovenia

City: Ljubljana

Country: Slovenia

Telephone: ++386 1 2805 262

Website: www.kis.si

Facebook page: /

Name of the contact person: Kristina Ugrinovič

Position: vegetable specialist

Email: kristina.ugrinovic@kis.si

The research programmes of your centre

Specie: Variety testing – agronomic value

Person of contact for this programme: Kristina Ugrinovič, Mojca Škof

Email: kristina.ugrinovic@kis.si, mojca.skof@kis.si

Vegetal material	Technical itinerary	Integrated protection	Agrobiology	Other subjects
different species, varieties proposed by seed suppliers	production in the soil, open field or under simple protection (tunnels), different locations (climate, soil)	IPM as a standard	according to ICM	transfer of information through demonstrations, lectures and publications

Specie: Timing of production

Person of contact for this programme: Kristina Ugrinovič, Mojca Škof

Email: kristina.ugrinovic@kis.si, mojca.skof@kis.si

Vegetal material	Technical itinerary	Integrated protection	Agrobiology	Other subjects
different species	production in the soil, open field or under simple protection (tunnels), different locations (climate, soil)	IPM as a standard	according to ICM	transfer of information through demonstrations, lectures and publications

Specie: Brassicas pest management

Person of contact for this programme: Kristina Ugrinovič, Mojca Škof

Email: kristina.ugrinovic@kis.si, mojca.skof@kis.si

Vegetal material	Technical itinerary	Integrated protection	Agrobiology	Other subjects
Brassica vegetables	open field, pest monitoring, evaluation of different measures against cabbage root fly, flea beetles...	IPM as a standard	according to ICM	introduced through EU project PURE

Specie: Onion nutrition

Person of contact for this programme: Mojca Škof

Email: mojca.skof@kis.si

Vegetal material	Technical itinerary	Integrated protection	Agrobiology	Other subjects
open pollinated	N fertiliser dose and	IPM as a standard		

Slovene varieties	timing influence on yield and storage			
-------------------	---------------------------------------	--	--	--

Specie: Variety testing – shortened DUS for amateur and conservation varieties

Person of contact for this programme: Kristina Ugrinović, Mojca Škof

Email: kristina.ugrinovic@kis.si, mojca.skof@kis.si

Vegetal material	Technical itinerary	Integrated protection	Agrobiology	Other subjects
different species, according to applications		IPM as a standard	according to ICM	

Specie: Variety testing – varietal trueness and purity

Person of contact for this programme: Kristina Ugrinović, Mojca Škof

Email: kristina.ugrinovic@kis.si, mojca.skof@kis.si

Vegetal material	Technical itinerary	Integrated protection	Agrobiology	Other subjects
different species, according to the Inspection programme		IPM as a standard	according to ICM	

Specie: Gene bank collection

Person of contact for this programme: Jelka Šuštar Vozlič, Mojca Škof

Email: jelka.sustar-vozluc@kis.si, mojca.skof@kis.si

Vegetal material	Technical itinerary	Integrated protection	Agrobiology	Other subjects
lettuce, beans, onion, garlic, cabbage, rocket	multiplication, description, collection			

Specie: Breeding of beans

Person of contact for this programme: Jelka Šuštar Vozlič

Email: jelka.sustar-vozluc@kis.si

Vegetal material	Technical itinerary	Integrated protection	Agrobiology	Other subjects
dwarf and climbing; accessions form AIS GB collection and commercial varieties	drought and <i>Colletotrichium</i> resistance			

Current partnership with other research centres (national or international)

Specie:

Nature of the project:

Length of the project:

Partner names and countries:

Are you searching for more European partnerships with other research centres?

On what species:

Different, preferably salad crops (lettuce, Italian chicory, corn lettuce), onion crops (onion, garlic, leek), fruit crops (pepper, tomato, squash, slicing cucumber), beans (dwarf and climbing, for pods or seeds) and brassica crops.

What kind of projects are you searching for?

Applied research on improvement of integrated and organic cultivation technologies for soil production, on the open field or under the simple protection. Focus on yield and nutritional quality improvement through plant nutrition, protection, rotation (especially under the protection), soil management, timing of harvest, variety selection...

What kind of partners are you searching for? From which countries?

Any kind from different countries.
