Current partnership with other research centres (national or international)

Specie : FERTINNOWA

Nature of the project:

- Transfer of INNOvative techniques for Sustainable WATER use in FERTigated crops

Length of the project:

3 years

Partner names and countries :

20 research stations in Europe.

Partnerships with Inagro and Sint Kateleine Water from Belgium.

Are you searching for more European partnerships with other research centres?

On what species : Seed treatment, biologicals, green chemistry (crop protection).

What kind of projects are you searching for: research and demonstration.

What kind of partners are you searching for? From which countries?

Prefer England, France, Germany, Belgium. Also other countries.
